

# THE CORPORATION OF DELTA

## ENGINEERING DEPARTMENT

---

For Immediate Release – March 22, 2011

### Free Sustainable Gardening Workshops *Lighten your Garden's Footprint on the Planet*

Spring is here and it's time to start planning your summer garden!

To help you kick start the gardening season, the Corporation of Delta has announced its 2011 sustainable gardening workshops schedule.

The workshops, **free** for Delta residents, will provide you with expert advice on how to create healthy, beautiful, and functional yards without negatively impacting the environment. Prizes are also offered at every course!

Delta is offering a diverse range of courses this year including seed starting, container gardening, growing 'green' and backyard composting. There are over 15 workshops to choose from. Courses are free, but space is limited and registration is required.

Register early - the first workshop starts April 2, 2011 and is filling up fast.

For a complete list of the 2011 workshops and registration information, visit Delta's Events page online at [www.corp.delta.bc.ca/events](http://www.corp.delta.bc.ca/events) or call the Engineering Department at (604) 946-3260.
